

# Senior Talent SHOWCASE

Rules and Guidelines

# Senior Talent Showcase

## Statement of Purpose and Objectives

### Senior Talent seeks to achieve the following:

1. To recognize and involve Church of God Senior Adults who demonstrate talent, skill, and accomplishment in art, music and writing.
2. To motivate Senior Adults to utilize their talents in worship and in the evangelism ministries of the church, consecrating their talents for the purpose of Christian witness.
3. To provide evaluative data on performances which may serve as a guide for continued development of skills and talents for the glory of God.
4. To promote personal proficiency and growth in spiritual development, academic improvement, performance of Christian music, and proficiency in art and writing.
5. To provide opportunities for Seniors to interact socially in Christian fellowship.
6. To develop a sense of accomplishment, ministry and communication for Christ through their talents.

## Levels of Competition

**State/Regional Competition:** The program on the state level will be directed by the state/regional director of Mission North America. If the director feels that competition prior to the National level is needed, he can initiate that competition for any category or categories he deems necessary. However, if a category is offered beyond the scope of categories in this booklet, there will be no National competition for that category.

**National Competition:** The Senior Adult Ministry / Mission North America will arrange and supervise competition on the National level.

## Participation

### Entry Requirements for each Participant

1. Age 50 and above on the day National competition begins.
2. A registered (*paid*) delegate for the Senior Adult Retreat (The Gathering).
3. A regular attendee of the Church of God.
4. Can only represent the Church of God which he/she regularly attends.
5. State winners are to be officially entered in National competition by their state director.
6. If the state winner in any category is unable to participate at the National competition, the runner-up shall be eligible to compete per approval of state director.
7. Can only enter a specific category once but can enter other categories in same division or other divisions. (*Example: Someone enters two poetry writings will only be allowed to submit one before competing at state level. On the other hand, if someone enters one poetry and one short story this would be acceptable, because it is two different categories.*) This requirement is for all divisions.
8. State winners of the art and writing divisions must submit same piece. They cannot change to a different piece at National competition.
9. Each entry of the art and writing division must be the original work and idea of the participant and must not have been entered in previous state and National competition.

## **Standards of Adjudication**

What standard of performance may an adjudicator reasonably expect of a participant or group of participants? The following comments are highly generalized. It is not our purpose to set up arbitrary standards of performance, which must be achieved by all participants in order to receive certain ratings. Rather, each performance must be adjudicated individually and in the final analysis each adjudicator must decide what rating each performance deserves. Brief descriptions of the type of performance which might be awarded the respective ratings in competition are given below. These descriptions are offered, not as an attempt to pre-adjudicate any performance, but merely in hope that they will provide background to assist the participant in understanding the adjudication process.

### **Superior – 4.5 through 5.0**

This rating represents the finest conceivable performance, worthy of distinction of being recognized as among the very best. While the adjudicator might find some minor points to criticize and make some helpful suggestions for further improvements, remarks would generally be complimentary for outstanding work.

### **Excellent – 3.5 through 4.4**

This rating reflects an unusually worthy performance, but not one worthy of the highest rating due to minor defects. Yet, it is a performance of distinctive quality. The participant or group of participants with an excellent rating usually show the result of sound fundamental training, but the performance lacks the polish and finesse to qualify for a superior rating. It is relatively easy for an adjudicator to comment on such a performance because the weaknesses stand out clearly against a generally first-rate background and suggestions are usually focused on something specific and helpful.

### **Very Good – 2.5 through 3.4**

This rating is awarded for a very good performance, but one that is not outstanding. The performance shows accomplishments and marked promise but is lacking in one or more essential qualities. The rating indicates much room for improvement in several of the fundamental items listed on the Adjudicator's scoring sheet. There would probably not be adequate space as well as time to record each separate error as it occurred. The participant would have some basically fine qualities, and there should be ample opportunities for the adjudicator to make suggestions for sound improvement in those fundamental factors in which the performance revealed weaknesses.

### **Good – 1.5 through 2.4**

This rating describes a performance that shows some obvious weaknesses. These may simply reflect a lack of preparation time. This rating represents a performance which is generally weak and uncertain. There are numerous errors and the performance reveals basic weaknesses in most of the fundamental factors listed on the scoring sheet. The adjudicator will probably not devote much space to pointing out specific errors in the performance. Comments, however, will likely be encouraging and contain helpful suggestions for improvement.

### **Satisfactory – 1.0 through 1.4**

This rating indicates a performance which reveals much room for improvement. It indicates a performance in which participants reveal almost a complete lack of preparedness and understanding. In some cases, this may be due to participants attempting to perform in a category which is far too advanced for their ability. In others it may be due to an accumulation of careless and bad performance habits, which only tend to become accentuated and more noticeable as the individual or group matures. The adjudicator will point out any commendable features and the basic weaknesses in the performance and will make suggestions for improvement. These comments should encourage the participants to work toward improvement so that they may qualify for a higher rating in the future.

## **Explanation of Adjudication**

### **Scoring the Participant**

Each participant is evaluated according to certain specific factors listed on the score sheet in which we have included on each description.

### **Tallying the Score**

After the adjudication has been completed, the score sheets are used to prepare an adjudicator's summary. On this summary, the score sheets from all the adjudicators for a particular participant are averaged together to determine the single rating for the participant. The tally person will convert the rating of each participant into a category.

The reason for this mathematical adjustment is obvious. Without a tempered chart, there probably would be no superior ratings; and most participants would rate proportionately lower.

For example, without the tempering effect, in order to gain a superior rating, a participant would have to score five points on each factor throughout the performance in the opinion of each adjudicator. This would be unlikely to say the least. With the tempered chart, there will be a few superior ratings, and all other participants will score in equal proportion.

### **Determining the Final Rating**

The final decision on the rating to be earned by the participant is made by the panel of adjudicators. The prepared adjudicator's summary of each participant's performance, with the corresponding score sheets attached, is then returned to the adjudicators for a final analysis.

Since some relativism is involved in the scoring process, it is the privilege of the adjudicators to view the outcome and then alter any original scoring, if retrospection deems it necessary and feasible. The factor of relativism may cause one or more of the adjudicators unknowingly to become extreme in either direction. In fact, it is impossible to establish a proper median (i.e., an equal number of scores above and below the middle point of all the scores) until all participants have participated for the adjudicators. Hence, the provision for final deliberation assures the most accurate decision possible from the panel of adjudicators as a whole.

### **Determining the Final Winner**

The participant with the highest score in any given category, after the adjudicators have completed their deliberation, is the winner of that particular category. In the case of numerical ties, the adjudicators will determine, through deliberation, which of the participants involved in the tie is to be the winner. The decision of the adjudicators is final and no explanation to anyone is needed to justify the decision.

### **Adjudicator's Evaluation to the Participant**

There is space on each score sheet for the adjudicator to write comments and suggestions to the participant or group of participants as a current evaluation of their performance and as a guide for their development in the future.

Within a few weeks after state/regional and National levels of competition, the USA Missions Division will mail a copy of the written comments and evaluations from each adjudicator to the talent participants. Through this procedure, the adjudicators have an opportunity to communicate any observations they wish to make concerning strengths, weaknesses, and areas that need attention. Potentially, this adds a learning experience to the Senior Talent program.

2. In the State/Regional and National competitions, participants in each category of vocals or instrumentals (solos, ensembles, choirs) will perform one selection.
3. Sound tracks may be used in any category but must be on a CD, ***no cassette tapes will be accepted***. The CD should be a single track and no multiple tracks. (WARNING: If the adjudicators determine background vocals or duplication of the solo instrument on the tape distracts or interferes with the performance, points may be subtracted from the score.)
4. A participant in the National competition is disqualified if he/she fails to appear at the designated time and place for his/her performance.
5. Vocal participants may hold a microphone while singing in competition. (WARNING: Proper microphone technique is very important when a vocal participant selects to hold the microphone in competition.)
6. Maximum performance time for solos and ensembles is five minutes. Maximum performance time for choirs is ten minutes.
7. Performance must be "live". Pre-programmed sequencing is allowed. However, if the adjudicators

- determine that the sequencing distracts or interferes with the performance; points may be subtracted from the score. Only the “live” performance will be adjudicated.

## **Music Division / Classification and Description of Categories**

There are six categories in the Music Division with a total of 15 areas of participation. Classification and description of categories and the respective areas of participation are described in the next few pages. Selections should not be less than 3 minutes and not more than 5 minutes.

### **1. Vocal Solo Category**

#### **Classification**

- a. Vocal Solo-Male (Ages 50-59; Ages 60 and up)
- b. Vocal Solo-Female (Ages 50-59; Ages 60 and up)

#### **Description**

The vocal solo category includes two areas of participation. The first area, vocal solo-male, is defined as one singer – male, accompanied or unaccompanied. The second area, vocal solo- female, is defined as one singer – female, accompanied or unaccompanied. (Note : Age brackets)The soloist is usually accompanied by piano, organ or both; but any instrument or combination of instruments may be used as accompaniment. The accompaniment is not adjudicated. Only the vocal performance is evaluated in the vocal solo category. Nevertheless, a good strong accompaniment will enhance the solo performance. Evaluation of the soloist begins with entry on stage and ends with exit.

Voices are classified according to range, sex, age and somewhat according to quality. From high to low the basic classifications are soprano, alto, tenor, and bass. Soprano and alto designate respectively high and low female voices. Tenor and bass designate high and low ranged male voices. The most ordinary range for a female voice is that of a mezzo (or half) and lies between a true soprano and alto. The parallel male voice between that of tenor and bass is known as baritone. These constitute the six basic voice classifications to be used in classifying soloists in the vocal solo category.

Vocal ensembles may be all male, all female, or mixed. The vocal ensembles may perform with or without a conductor. As in the vocal solo category, only the singers will be evaluated; however, a strong accompaniment is most beneficial. This category requires that more than one part be sung. This does not exclude unison or reduced-parts sections, but the main emphasis of the musical arrangement is upon harmonic blend. For example, a duet might utilize two parts; whereas, a group of ten voices will probably want to utilize four or more parts.

##### **Classification**

- ↪ Strings-Bowed
- ↪ Strings-Plucked
- ↪ Woodwind
- ↪ Brass
- ↪ Percussion–Definite Pitch
- ↪ Percussion–Indefinite Pitch

## **Description**

The instrumental solo-non-keyboard category includes six areas of participation: **strings- bowed** (violin, viola, cello, double bass, etc.), **strings-plucked** (acoustic or amplified guitar, banjo, mandolin, harp, lute, autoharp, etc.), **woodwind** (flute, harmonica, piccolo, clarinet, saxophone, oboe, English horn, bassoon, contrabassoon, melodica, etc.), **brass** (trumpet, coronet, French horn, tuba, sousaphone, baritone, euphonium, trombone, bass trombone, etc.), **percussion-definite pitch** (timpani, kettledrums, glockenspiel, orchestra bells, tubular bells, chimes, xylophone, marimba, steel drum etc.), and **percussion-indefinite pitch** (drums, acoustic or electric, cymbals, triangle, gong tam- tam, congos, tambourine, woodblocks, temple blocks, castanets, maracas, claves; any combination of indefinite pitch percussion instruments may be played by one player, etc.)

This category covers all instruments except those classified as keyboard. It must be stressed firmly that the adjudicators will rate the soloist's performance and not the accompanist's performance. If the accompaniment embodies a group of players, the soloist must clearly be the soloist and not simply part of the accompaniment or ensemble. The participant must perform on only one instrument. There is one exception to this ruling: A participant in the percussion-indefinite pitch area may perform any combination of the indefinite pitch percussion instruments. A participant in the percussion-definite pitch area must perform on only one instrument, with the exception of timpani.
